Presentation of Indiana Oil and Gas Association

Host: Charles E. Venditti, PE, PMP

President, Indiana Oil and Gas Association

Wesley Cate

Wesley Cate serves as the Director of Business Development for NGL Supply Terminals Co. in Denver, Colorado.

NGL is a 50-year-old privately held diverse energy company with commercial platforms in the LPG space as well as significant terminal assets throughout North America. Wesley is responsible for leading the diversification of the company into new energy commodities such as hydrogen, CNG, RNG, and renewable propane.

Wesley has 18+ years of diverse experience in the energy industry with expertise in midstream, natural gas marketing, exploration and production and land management. He currently serves as the President for the Kentucky Oil and Gas Association and on the Board of Directors for the Renewable Natural Gas Coalition.

A native of Kentucky, he holds a B.A. in Finance from Eastern Kentucky University. In his spare time, Wesley is an avid global outdoorsman and enjoys teaching his 2-year-old son how to ski, bike and hike in the Rockies.

Kevin Strunk

Kevin Strunk has been an independent energy, aggregates, environmental and economic consulting geologist with Wabash Resources & Consulting, Inc., which has been located in Indianapolis since 1984.

He has a BS in Geology from Indiana University and an MS in Geology from Southern Illinois University.

Kevin is Indiana, Illinois and Kentucky Licensed Professional Geologist. He also is an Indiana Licensed Real Estate Broker.

Kevin has been involved with oil & gas exploration and development in the Illinois Basin, the Trenton Field of Indiana and Ohio and with various projects in nearby states for nearly 40 years. Lately, he has been following the developing opportunities in Carbon Sequestration, which relies heavily on oil & gas related geologic knowledge, field operations and service company relationships.
